

# PROMOTING HARM REDUCTION WITH EVERY VEND

Harm reduction is more important than ever, and HRI Vending is proud to be at the forefront of this critical movement. Discover HRI Vending's Customized Vending Machines.

## OUR MISSION

Our mission is to combat the opioid epidemic and prevent overdose deaths by making these customized machines more widely available in public places, such as community centers, police stations, and harm reduction organizations looking to make a difference in their communities. *Join the movement towards harm reduction today and learn how HRI Vending's customized vending machines can make a difference in your community*

## EQUIPMENT

Our customized vending machines provide easy and convenient access to essential harm reduction products, including Narcan, fentanyl test strips, and medication-locked bags. With customizable options to fit your unique needs, our vending machines empower individuals and organizations to promote harm reduction and save lives. In fact, HRI Vending has successfully provided these vending machines to multiple locations in Milwaukee County, where they help save lives and prevent overdoses.

## WHY US

At HRI Vending, we're committed to providing the highest quality services, even offering **free training** with a certified technician before the machine goes out the door. Whether you're looking to distribute life-saving products, provide educational resources, or raise awareness about harm reduction, our customized machines are the perfect tool for your mission.
